B “New Plants on the Block” by Carol Lord

1:00 – 2:00 Breakout Sessions II

A. “Fun With Herbs in the Garden” by Carol Perryman

If you have a small patch of land, a sunny porch, existing landscape, a 5 story terrace or a couple of pots, you can have fun with herbs in your garden. Herb gardening, more than any other type, can support varying interest and a lifetime of learning and fun. How to begin and what you need to consider when growing herbs in our crazy NW FL climate will be discussed.

B. “Pallets, Peace, Poles and MoreA Garden Talk” by Jerry Patee

Our garden spaces lend themselves to incorporating personal taste and interest into developing style, either formal or informal, in this case eclectic. This Garden Talk explores ways of identifying and finding those everyday items and seeing them in a different way. The talk looks at how to use Garden Art as a focal point or perhaps to be discovered as we explore the garden.
